

## A JOURNEY TO BUILD A LEGACY:

UMVUZO HEALTH CELEBRATES 20 YEARS AND 2025 BENEFIT LAUNCH

2024

*"We didn't set out to build a legacy,"* said Heinrich Rix, co-founder of Umvuzo Health, *"but through discipline, commitment, and shared values, we've created something enduring."*

On 4 October 2024, Umvuzo Health proudly celebrated its 20th anniversary with a celebratory event at the Atterbury Theatre in Pretoria, where the Scheme unveiled its 2025 benefit options, highlighting valuable improvements across all plans.

The atmosphere was one of reflection and excitement as Umvuzo's team and invited brokers came together to mark two decades of healthcare excellence. During the event, Umvuzo introduced its 2025 benefit options.

*With an 8.93% average Scheme increase,*

Umvuzo is dedicated to providing value for money in the industry while enhancing member care.

### Walking the Journey

Attendees on the day were gifted exclusive sneakers, which represented the invitation Umvuzo is making to members and all stakeholders to continue walking the journey ahead. With key speakers reminiscing about the early days of the Scheme, they also focused on future advancements and rewards for members.

Vice-Chairperson Sibongile Mabuza echoed these thoughts with a personal touch to the conversation, saying,

*"Umvuzo presented rich benefits, which was the game changer for me – at a time when people couldn't afford medical aid. I want to continue to see Umvuzo reach out to change more lives of South Africans!"*

### Members Come First

The idea of the day was clear: Umvuzo Health is not just a healthcare provider but a partner in its members' lives, ensuring that their needs and loved ones are always prioritised and that the Scheme continues to evolve to reward and support.
