BENEFIT GUIDE

# ABOUT THE ULTRA AFFORDABLE VALUE OPTION

**THE ULTRA AFFORDABLE VALUE OPTION** is an entry benefit option specifically designed for the younger generation who embrace technology and innovation to improve access to healthcare. Members on this option access the primary care (such as GPs and nurses) through the Umvuzo Digital Platform. This app-based virtual consultation platform allows members to consult healthcare providers in the comfort of their homes or places of work. Only through the Umvuzo Digital Platform can the members be referred for in-person GP consultations when required.

For further medical interventions that may be required, the primary healthcare provider (GP) will refer the member to the appropriate specialisation.

These primary benefits are further topped by secondary and tertiary benefits for full healthcare coverage.

## UMVUZO HEALTH DIGITAL PLATFORM

All Umvuzo Health members, regardless of benefit option, have access to our digital platform, where many of their healthcare needs can be met.

The availability of digital platforms and new healthcare technologies makes healthcare more accessible and provides an opportunity for us to offer our members several options to access primary healthcare services, specifically medical consultations and treatment for minor acute and management of chronic disease conditions.

This is a significant step towards making healthcare even more accessible, especially for those who live long distances from the nearest healthcare provider, such as in rural and remote areas.

**HOW TO ACCESS THE UMVUZO CARE APP**

- 1 DOWNLOAD THE APP:** Search 'Umvuzo Care' on your mobile phone's app store to download.
- 2 SET UP YOUR PROFILE:** Use your Umvuzo Health membership number and create a password.
- 3 GET STARTED:** Click 'Start Healthcare Session', select the family member who needs the consultation, and begin your consult.

Download the **Umvuzo Digital App** today!

Available on the **App Store** | GET IT ON **Google Play** | EXPLORE IT ON **AppGallery**

### USING THE PLATFORM

Here are the options you have on the Umvuzo Digital Platform:

#### THE ONLINE SYMPTOM CHECKER

Imagine you had a tool that you could use when you are not feeling well. This tool would ask you questions about how you are feeling. For example, if you have a fever, a cough or any other symptom. It would be like having a conversation with an online friend. Based on the outcomes of the online symptom checker, you would be advised of the most appropriate level of care you need, ranging from a nurse to a doctor. This is what the Umvuzo Health Online Symptom Checker will assist you with.

#### DIRECT VIRTUAL CONSULTATION

This is an option you have on the Umvuzo Digital Platform to choose to consult directly with a healthcare expert. Selecting this option connects you with an available qualified healthcare provider who can assist you with your needs.

As your safety remains a top priority, the online consulting healthcare provider may request more clinical information through a physical examination to ensure a good clinical outcome. Because virtual consultation has limitations and is not always suitable for all health conditions, you will be advised on the Umvuzo Digital Platform when you should consult face-to-face with your own healthcare provider.

#### ACCESS FROM ANYWHERE

The Umvuzo Digital Platform makes it possible for you and your registered beneficiaries to access healthcare services from the comfort of your homes, work or wherever else you may be, saving you time and money.

Our on-site consultants and specialised contact centre offer support for any member who has difficulty accessing the virtual platform or prefers to be walked through the entire process.

- » The benefit is limited to **R50 000** per family per year.

**Please note:** This is not a gap cover and excludes primary care benefits and any other services.

# DISEASE MANAGEMENT

## ACTIVE DISEASE MANAGEMENT PROGRAMMES

- » Our Disease Management Programmes are structured treatment plans that aim to help our members diagnosed with chronic conditions better manage their disease, and maintain and improve quality of life.
- » The main aim of our programmes is to reduce the symptoms associated with a chronic disease and keep them from getting worse. Through these programmes we also aim to improve cooperation between the various specialists and institutions that provide care for our members, such as family and specialist doctors, hospitals and rehabilitation centres. This is meant to ensure that the individual treatment steps are well coordinated.

### We cover treatment and medication for the following 27 CDL PMB conditions:

- » Chronic Renal Disease
- » Addison's Disease
- » Asthma
- » Bronchiectasis
- » Cardiac Failure
- » Cardiomyopathy
